

Installation guide **Catch Can at the Golf 6 GTI** *Errors and omissions excepted*

Congratulations on your purchase of the Catch Can System. We are committed to providing you unclouded enjoyment of the system in combination with your vehicle. Therefore, please follow these installation instructions point by point. This will help you avoid mistakes during installation.

Note: If you are not confident with the assembly, please visit a specialist workshop.

Due to the warranty obligation, the installation of the Catch Can System must be carried out by a specialist company, which must be documented by the purchaser with an appropriate invoice in the event of a warranty claim. Damages cannot be claimed in case of self-assembly by unqualified third parties.

1. Remove the engine cover.
